

Optimize **Qwickly** Products in the Classroom

This document contains resources on how to utilize the Qwickly tool set; **Qwickly Attendance**, **Qwickly Course Tools**, and **Qwickly Jot**. The resources below are available to help faculty take advantage of the Qwickly products provided and manage class time efficiently. **Scan each code to access** On-Demand Faculty Trainings, On-Demand Webinars, How-To Videos, and the Qwickly Community Page.

On-Demand Faculty Trainings: On-demand training provides administrators, staff, and faculty an overview of features & settings in specific Qwickly products. These on-demand sessions allow for learning at your own leisure and during a time convenient for your schedule.

On-Demand Webinars: Register for an upcoming or on-demand webinar and discover the solutions provided by Qwickly. Get a first-hand look at products, ask questions, and understand how Qwickly will best meet the needs of your institution. Registration for office hours is also available for an opportunity for users of any product to ask specific questions and provide feedback.

How-To Videos: How-To videos are a great first step to learn how to use all three products in our Qwickly product portfolio. These videos are short snippets, typically between 1 and 5 minutes, designed to introduce and walk through different features within our tools. User Guides can also be found here for a step-by-step walk through of the tool or feature.

Qwickly Community: Explore the Qwickly Community page to discover best practices among all Qwickly products as well as company news. This page acts as a central hub where faculty can come and view feature updates as well as register for the Qwickly Course Tools Tips & Tricks mailing list to be notified monthly of the most efficient ways to use the course management tool.

Scan code to learn about the brand-new **SMS Text Messaging Tool** within Qwickly Course Tools:
